This workshop will address the rights and risks that sign language interpreters need to be aware of at all times. There will be a focus on three areas: The Code of Professional Conduct, State and Federal Laws and Contracts. Interpreters will learn to better deal with a variety of legal issues that may arise during their careers including the area of video interpreting. Interpreters will learn what laws on both state and federal levels mandate the provision of interpreting services, and how those laws need to be understood to better protect oneself in business. Most importantly, participants will learn the basics of contract law to better protect themselves from nonpaying business partners.
