

Michigan Registry of Interpreters for the Deaf

Medical Interpreting Introduction

with Nigel Howard

www.mirid.org

Target Audience: Professional Interpreters and ITP students

Workshop Description: This 1 day training will provide participants an opportunity to learn about anatomy and physiology in American Sign Language with an emphasis on Classifiers and 3D Space. In addition, they will analyze and practice discourse used in the medical setting.

Educational Objectives : Following this training, the participants will be able to use classifiers and 3D space to show the various body systems, regions, cavities as well as diseases. They will also have an increased understanding of medical terminology in ASL.
